Lightning Kills One; Injuries Two

Miss Betty Jean Thompson, 17, was killed and two other women were seriously hurt Wednesday afternoon when lightning struck the truck on which they were riding home from work at Brown's Farm east of Belle Glade. The tarpaulin covered truck was loaded with farm labor from the Pahokee migratory camp and was returning home in a downpour when the lightning struck.

Miss Thompson, who lived at the Farm Labor Camp, was reported dead on arrival at the office of a Belle Glade physician, where she was taken after the accident occurred. Mrs. Ila Jones, about 35, and Miss Clara Healon, 17, received preliminary treatment at the physician's office and were taken to Belle Glade Memorial Hospital where their condition was described as "satisfactory."

Two other persons were also treated for minor injuries by the physician and released.

Miss Thompson is survived by her mother, Mrs. Louise Fertic; a sister, Mrs. Alice Mills, Pahokee; and a brother, James Thompson, Pahokee.

The body will be sent to Opp, Ala., for funeral services and burial. Berry Funeral Home, Pahokee, has charge of arrangements.

An express messenger was shaken up, two cabooses were smashed and a refrigerator car was damaged in a freak FEC train wreck at the Canal Point freight yard early Sunday morning.

Two FEC freight trains, hauling refrigerator cars and headed in opposite directions, had just switched past each other and were both again on the main line when they backed into each other, completely wrecking the caboose on each train. The only occupant in the two cabooses was the express messenger who received some bruises but escaped serious injury.

A wrecker crew from Fort Pierce had the line cleared for traffic by noon Monday.

Also reported was the club's effort to obtain running water at the Pott Mayac Cemetery. A flower container shower for the local hospital was given and Mrs. C. G. Coburn won a plant identification contest.

News Notes From State Capital

TALLAHASSEE — Civilian defense for Florida in case of war will be planned by a 7-man board to be appointed by Governor Warren, and using a full-time director to train the people to care for themselves while under attack. The plan was announced soon after a public warning from William A. Gill, assistant director of the civilian mobilization office, lecturing here at Florida State University. Warren said this is part of a nation-wide program of civil defense and will be independent of military activities along defense lines.

TALLAHASSEE — A new and modern hotel for the state capital is being started, with good prospects it may be opened by the time the next legislative meets. Chauncey M. Butler, former FHA administrator for Florida, is president of the company building the hotel, which will be called the Duval. It will cost close to \$1,000,000; have seven floors and a banquet and assembly hall, something Tallahassee has been trying for years to get.

TALLAHASSEE — Final returns for the May 23 second primary being tabulated here show Wilbur C. King was re-elected railroad and public utilities commissioner over Grady Albritton of Tampa by more than 70,000 votes. Chester B. McMullen of Clearwater decisively defeated J. Tom Watson of Tampa for first district congressman. Other upsets include defeat of Alex Littlefield, Chairman of the state Democratic executive committee, and of John (Deacon) Scruggs of Tallahassee for membership on the committee. Littlefield openly espoused the cause of Senator Claude Pepper, and Scruggs was charged last year with trying to bribe a member of the legislature to vote against the boondock bill.

TALLAHASSEE — Leon County circuit court is asked to determine whether cities and towns must reduce their 1950 taxes 50 per cent for the entire year, to get state cigarette tax benefits, or whether it should be on an eight-month basis. Coral Gables has contended that their taxpayers are entitled only to eight months of tax savings, since the law didn't go into effect until four months after the start of their fiscal year. Comptroller C. M. Gay says the law declares a whole year's tax receipts must be taken into account.

TALLAHASSEE — Four new members of the Florida Citrus Commission have been named by Governor Warren to fill vacancies. They are Warren Zeuch, Vero Beach; Harry Tooke, Sanford; Nash LeGette, Leesburg; and Frank Roper, Winter Garden. Roper replaces the late Dodge Taylor; the others serve from the state at large until May 31, 1952.

TALLAHASSEE — Adoption of a budget of approximately \$1,200,000 for the next fiscal year is the main business before the state game and fresh water fish commission meeting here this week. Colman Newman, Commission Director, estimated that much money will be taken in by the Commission from sales of hunting and fishing licenses.

TALLAHASSEE — Contracts have been awarded this week by the cabinet for \$98,666 to Radio Corporation of America for equipment to change frequencies on the state highway patrol radio system, and by the board of control for

\$25,000 to Jack Culpepper of Tallahassee for the concrete foundations for Florida State University's new steel football stadium. An apparent low bid of \$38,700 for air conditioning equipment for the state supreme court building is being kicked around, after a report from the State Improvement Commission that the second high bid of \$42,430 by Falkner, Inc., of Orlando was preferred.

Cinematic Chatter

By Malcolm Millar

I understand Errol Flynn became interested in acting when his ship was chartered for a photographing expedition among the head hunters in the South Pacific. His first film was made for an Australian film company and never shown outside Australia. Greer Garson escaped a teaching career by joining a London advertising company. Her ambition to become an actress was realized when she joined the Birmingham Repertory Theatre, in London. Robert Young made his screen debut in "The Black Camel," filmed in Hawaii. From that piece of work came his first contract in Hollywood. Walter Pidgeon was encouraged to continue his efforts for a theatrical career by Fred Astaire, who saw his debut in "You Never Can Tell," on Broadway. Now we will see all these clever people in "The Forsyte Woman," which bows on to the screen of the Prince Theatre, Sunday-Monday. A total of 13 babies, aged two weeks to one year, were hired to impersonate Barbara Stanwyck's son in "No Man of Her Own." We'll see it soon, and I'll see you at the movies — Mal.

April Gas Tax Higher Than Last Year

TALLAHASSEE — Florida gasoline sales in April dropped 9,480,000 gallons below the record set in March, but were still six million gallons higher than in April last year.

Comptroller C. M. Gay reported collection of \$4,513,817 in taxes on 64,483,110 gallons of gasoline in April. That compared with 73,963,421 gallons sold in March and 58,430,912 gallons in April, 1949.

March traditionally has the year's highest sales of gasoline and other commodities in Florida.

The whole seven cents tax on each gallon of gasoline now goes to build roads and bridges or pay off bonds issued in the past to construct highways.

A Dollar For 2 Weeds Is Price Offered

GAINESVILLE — One dollar for two weeds? Fifty cents for a dandelion? Four bits for a thistle? Possible, and here is how. Any science student in Florida schools may enter a flower collection contest sponsored by the Florida Association of Science Teachers, and the winner will receive \$25 for the best 50 flowers. Ornamental baum and daughter have moved from Miami to make their home in Canal Point.

Mrs. W. H. Vann left Thursday for her summer home in Asheville, N. C.

Mrs. I. S. Guthrie and grandmother, Marcia Jean Guthrie, visited relatives in Miami over the weekend.

Real Estate Deals Show Big Pickup

WEST PALM BEACH — Marked pickup in Palm Beach county's real estate business has continued to be apparent through May. Even though some brokers call the number of property transfer papers filed "deceptive."

Number of such instruments put on record at the courthouse has shown a big month-by-month gain over the same figures for 1949. So far this year there have been 11,552 such instruments recorded compared with 9,933 for the first five months of 1949. A catch is that lots of the papers are mortgages, one broker points out.

Yet, major deals involving busi-

ness buildings and larger resi-

dences, recorded at the courthouse

have been more frequent, particu-

larly in the last three weeks.

And brisker sales of smaller homes

are reported by some brokers.

Copies of "Our Flag" Is Yours For Asking

JACKSONVILLE — Once again the Marine Corps Recruiting Service in Florida is offering free copies of "Our Flag," a 30-page colorfully illustrated booklet on the history, care, and customs of the National Colors.

Capt. J. J. Rardon, State Marine recruiting officer, in making the announcement, said that since Flag Day, 1949, over 5,000 copies of the booklet have been presented to organizations and individuals who wished to learn more about the Stars and Stripes.

Beginning with a discussion of such early American flags as the Moultrie Flag and the Rattlesnake Flag, the booklet follows the progress of Old Glory up to the present 13 stripes and 48 stars.

Detailed rules on the proper methods of displaying the flag are given, and approved flag customs are explained. An interesting sidelight is given in the parallel between the history of the Stars and Stripes and the history of the U. S. Marine Corps.

Copies of "Our Flag" may be obtained, without cost, by writing the Marine Corps Recruiting Station, Post Office Building in Jacksonville, Miami, Ocala, Orlando or Tampa.

Pesky Eye Gnats May Be Obliterated

THOMASVILLE, Ga. — Pesky eye gnats, vacation spoilers in many areas will be studied this summer by US Public Health Service scientists. They're interested mainly in whether an abundance of the gnats is related to any prevalence of conjunctivitis or eye sore or "pink eye" in the same areas. Methods of controlling the gnats might come from the studies. The eye gnats are serious pests in some areas of California, Texas, Louisiana, Mississippi, Alabama, Georgia, Florida, and South Carolina, said Dr. R. A. Vonder Lehr, medical director of the Communicable Disease Center of the Health Service.

Number of such instruments put on record at the courthouse has shown a big month-by-month gain over the same figures for 1949. So far this year there have been 11,552 such instruments recorded compared with 9,933 for the first five months of 1949. A catch is that lots of the papers are mortgages, one broker points out.

Geiger Buys Farm In South Georgia

GUYTON, Ga., May 31. — The 3,500-acre Charlie Sheffield place was sold this week to Z. A. Geiger of Pahokee, Fla.

The farm is situated about two miles up the old Louisville road from here and includes an old two-story house which stands in an oak grove just off the road. This however will be torn down it is understood and will be replaced by a modern bungalow.

Geiger, originally from Bullock county, plans to raise cattle and hogs as well as dirt farm.

He has a wife and two children, who are living with him near the farm until the new home is completed.

Tallahassee To Get New TB Sanitarium

ORLANDO — Florida's new 350-bed tuberculosis sanatorium will be built at Tallahassee within approximately 18 months at a cost of \$2,750,000. It will serve Florida from Jacksonville west.

Thus, with the recently-announced 500-bed hospital at Drew Field, Tampa; the new 500-bed sanatorium at Lantana and the 400-bed Orlando hospital, Florida will have four up-to-date tuberculosis hospitals with 1750 beds.

The announcement was made here today by the Florida Tuberculosis Board, W. T. Edwards, chairman, who said the unit would replace the old Army air base hospital, which had been in use at Marianna since 1947. The Marianna plant will be used as a convalescent center to take care of patients from all Florida.

Natural Orchids In Bloom At Vero Beach

VERO BEACH — The peak of the natural orchid season is at hand, according to Dr. David C. Fairburn, Director of the McKee Jungle Gardens. Dr. Fairburn, who has pioneered in the outdoor growing of orchids, says that the warm winter has made this one of the best orchid seasons the state has ever seen.

In the McKee Jungle Gardens, comprised of more than 80 acres near the Indian River, Cattleya gigas orchids are in full bloom with many large lush white orchids on display.

Florida has a number of native orchids, but none are of commercial value. However, many of the regular floral shop varieties are now being developed for general outdoor locations throughout the state and the Vero Beach orchidologist predicts that each successive spring season will see more and more orchids in the Land of Flowers.

Confectioners' sugar is the finest white sugar made. Powdered sugar is the next finest. Granulated sugar then comes next and may be had in different grades.

If we desire to secure peace, one of the most powerful instruments of our rising prosperity, it must be known that we are at all times prepared for war. — George Washington.

University Planning For Commencement

GAINESVILLE — Latin-American relations will keynote University of Florida commencement exercises June 4 and 5 for a record class of 1,354 graduates.

Four prominent dignitaries from Cuba, Ecuador, Chile and Honduras will receive honorary degrees and University President J. Hills Miller will discuss the university's role in inter-American affairs at outdoor ceremonies the night of June 5.

The 1,354 graduates who will receive 1,359 degrees represent the university's largest graduation class in history. Largest previous class was 912 in 1949.

Major-General Roy H. Parker, chief of chaplain of the United States Army, will deliver the baccalaureate address Sunday night, June 4, at Florida Field. A veteran Army officer, General Parker saw service in both world wars and is an ordained Southern Baptist minister.

Georgia Is Tenth In Peach Production

ATLANTA—Whatever happened to all those peaches down in Georgia?

Why, there won't even be enough for the folks at home this year.

Estimates place this year's production at 600,000 to 700,000 bushels—the smallest crop in the 50 years for which records are available. It's the third year in a row the crop has failed.

The "Peach State" has tumbled from its once proud place as the number one producer of peaches for the consumer market to fall down the list. Last year, Georgia was tenth.

The weather is not entirely to blame for the decreasing size of the fruit crop. Many growers have backed away from the high production costs, and have dug up orchards and planted pastures for beef cattle. Disease and insects have wiped out entire orchards.

George H. Fior, State extension service horticulturist, said there were 8,000,000 producing peach trees in Georgia in 1940.

This year, Fior said, there are around 4,000,000.

Try this on your stereoscope!

WHEN THIS "VIEWER" was in the parlor, folks used to look at pictures like these.

They'd spend many an hour gazing wistfully at scenes of places they'd like to visit, things they'd like to do.

But, today, there's an invention that beats those stereoscopic pictures all hollow. No—it isn't television.

It's the Payroll Savings Plan—an automatic

method of saving that all but puts you on that liner and says "bon voyage."

So simple, so painless, so sure—the Payroll Savings Plan sets aside a small part of your earnings each and every pay day, puts it in United States Savings Bonds.

And those bonds grow and GROW. In ten short years they pay you back \$4 for every \$3 you put in today.

A self-fattening investment—guaranteed by Uncle Sam—that will let you do things for your family and for yourself that you could never do without such a convenient plan.

And, if you're not on a payroll, there's the equally convenient, equally profitable Bond-A-Month Plan at your bank.

No matter how you look at them, U. S. Savings Bonds help to picture a bright, happy future!

**CHURCH OF CHRIST,

"GOD THE ONLY CAUSE AND
CREATOR" is the subject of the
Lesson-Sermon which will be read in
Churches of Christ, Scientist, throughout the world on Sunday, June 4.

The Golden Text is: "He is the
former of all things; and Israel
is the rod of his inheritance: The
Lord of hosts is his name" (Jer.
10:16).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Son of man, what is that proverb that ye have in the land of Israel, saying, The days are prolonged, and every vision faileth? . . . I will make this proverb to cease, and they shall no more use it as a proverb in Israel; but say unto them, The days are at hand, and the effect of every vision" (Ezek. 12:22, 23 begin "I will").

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Spiritual causation is the one question to be considered, for more than all others spiritual causation relates to human progress. The age seems ready to approach this subject, to ponder somewhat the supremacy of Spirit, and at least to touch the hem of Truth's garment" (170:22).

These long mixed lines show it is hard for this person to keep money.

These lines show riches brought about by one's own efforts.

Loose flesh at the base of the thumb denotes a person who plans carefully.

WE'LL BET that this hand belongs to a person who invests regularly in U. S. Savings Bonds.

It is the hand of a person who plans for the future wisely and well. One who has enrolled in the Payroll Savings Plan where he works—or, if he's not on salary, on the equally convenient, equally profitable Bond-A-Month Plan at his bank.

U. S. Savings Bonds are Government guaranteed to pay you back \$4 for every \$3 you put in—after ten years. There is no surer, wiser investment a man can make today!

Dan McCarty Talks In Jax On Freedom

JACKSONVILLE—Americans can best "keep faith with our departed brothers" who gave their lives for their country by defending the "individual freedom" for which they died, Dan McCarty of Fort Pierce said Tuesday.

The Fort Pierce citrus grower and former legislator spoke at Memorial Day ceremonies conducted by all veterans organizations in downtown Hemming Park.

"Liberty to the individual takes on real importance when it is in danger," McCarty said. "The terrible truth is that after events have gone that far, there is not too much the individual can do."

He said there was a tendency to look to the government for support rather than have the individual support the government.
